Twenty Per Cent. of Those in New York Will Vote for Ex-Chief Judge.

Stories Sent Out From Washington Are Made Up by the Republicans.

(From Our Regular Correspondent.)

WASHINGTON, D. C., August 24-As indicative of the opposition to President ng portions of the public, it is stated that fully twenty per cent. of the Republican vote for Parker this year. Many of these joined the Constitution Club of that hich is composed of the chief lawof Greater New York, who will vote arker and in other ways endeavor to under the Constitution. This club is re-

he influence and the labors of this of great lawyers. It said that the organization of the situation Club was the first severe the Republicans received this year the nomination of Judge Parker, elyou is said to have expressed himto the effect that it was a bad omen, the President has not succeeded in ealing the fact that he views the as a distinct menace to success. for members of Congress, and that the proposition to remove the headquarters of the committee to New York was made because it would enable the committee to get money, have foundation only in the minds of imaginative Republican correspondents. The committee has money enough for its purposes. Of course, if it were proposed to purchase the voters outright, the committee would find itself short of cash. But for all legitimate purposes of the campaign there are sufficient funds on hand or in sight. The cost of speakers and printing are the principal items in the expense account of the committee.

A SHORT CAMPAIGN.

A SHORT CAMPAIGN.

A short campaign is desired by both sides. In the old days, before the general use of the locomotive and the multiplication of newspapers, presidential campaigns had to be commenced in the early summer, in order that the speakers might hecome educated upon the Issues involved. But the press is now doing the work which the speakers were counted upon to perform in times past, and the daily paper, circulated in the most remote corners of the country, keeps the voter informed as to every issue and phase of the contest. Six weeks is, perhaps, long enough in which to do the real work of the campaign.

Meanwhile, the Democrats are perfecting their organization in every State. Factions are being harmonized, and every preparation being made for an aggressive fight. There is much elation felt in the success which has attended efforts which have been made by leaders high in party grouncils to effect a reconcillation between Murphy and McCarren in New York. It is believed that the two now understand each other, and that they will unite to carry the city and State for Judge Parker.

test on the part of a considerable portion of the party against the leadership of ex-Senator Smith. It is thought probable that the Democrats will succeed in inducing him to retire from the active leadership of the party in the interest of harmony. It is said that the chief protestants against the leadership of Senator. Smith are the Democrats who espoused the cause of Mr. Hearst when he was seeking the nomination to the presidency. They bolted the State convention when it was seen to be in the control of the anti-Hearst element.

The movement alleged to be on in New York to nominate Mr. Hearst to the governorship by the Democrats of that State is not regarded seriously. He may allow his name to be used and may have some following in the convention. But when his pitiful weakness in the Empire State when he sought to get delegates who would vote for him for the presidential nomination is recalled, it is not feared that he will develop sufficient strength to make him a menace to party success.

MAY NAME MCLIPILIAN.

There has not been heard a great deal recently concerning the probability of the governorship. It was predicted in this governorship, It was predicted in this governorship, It was predicted in this governorship. It was predicted in this governorship, It was predicted in this governorship. It was predicted in this forces and all the property of the country. Notable among the governorship, It was predicted in this continues. He has made a splendid record as Mayor of Greater New York. But there is one blemish upon it, one which lie has not been able to remove, he failed to the "gas grab" bill. He sidd in excuse for his action in approving the measure that he knew the Governor of the State would voto it. But Republicans are naturally saying, and would say it in much louder tones if he were noninated, that had it not been for a Republican Governor the iniquitous measure would have become a law. Mr. McCleilan. Whose honestly has never been questioned by those who know him, doubtless realizes now the mistake which he made "How Rooseveit Uncovered the Postal" in Many Roosevelt Uncovered the Postal and the content of the country of the province of the

Retail Dealers From Various Sections Holding Annual Meeting Here.

The Retail Furniturs Dealers' Association, organized fourteen months ago at Charlottesville, held its first annual meeting last night at the Powhatan Hotel, and will resume and continue its sessions there to-day. Of the sixty-eight members of the association about thirty were preesnt last night including representatives of nearly all the Richmond furniture houses.

dent E, A. Thurman presided, with J. A. Gilmore, of Charlottesvile, secretary. Among the other officers present were Vice-Presidents T. M. Hundley, of Richmond; William H. Hyer, of Staunton, and S. P. Jones, of Richmond.
When the meeting had been called to order in the assembly room of the Powhatan last night, the presiding officer introduced Mayor-elect Cariton McCarthy, who welcomed the visitors to the city in a felicitous address, full of pleasantry but with a thoughtful vein as well.

The response to the welcome by Acting-President Thurman, of Roanoke, was very happy and was well received.

The association took up the business of the annual session. Secretary-Treasurer Gidmore, of Charlottesville, read his annual report, which was adopted. The report shows the organization to be in a healthful and growing condition, the membership having more than doubled since the last meeting and nearly all the leading furniture dealers of the State being emisted.

An address on "Advertising" was made by Mr. Wilmer Jones, of High Point, N. C., manager of the Southern Furniture Journal. It was listened to with interest and attention and Messrs. E. A. Thurman, T. M. Hundley, Fred, Jurgens and Nelson, of Richmond, and others discused the subject.

The association adjourned until 10 A. M., to-day. All furniture dealers of Richmond are invited, whether members of the organization or not. It is expected that several more of the out-of-town members will arrive to-day. An address on "Advertising" was made
